

Leg 12 - From Mortara to Garlasco

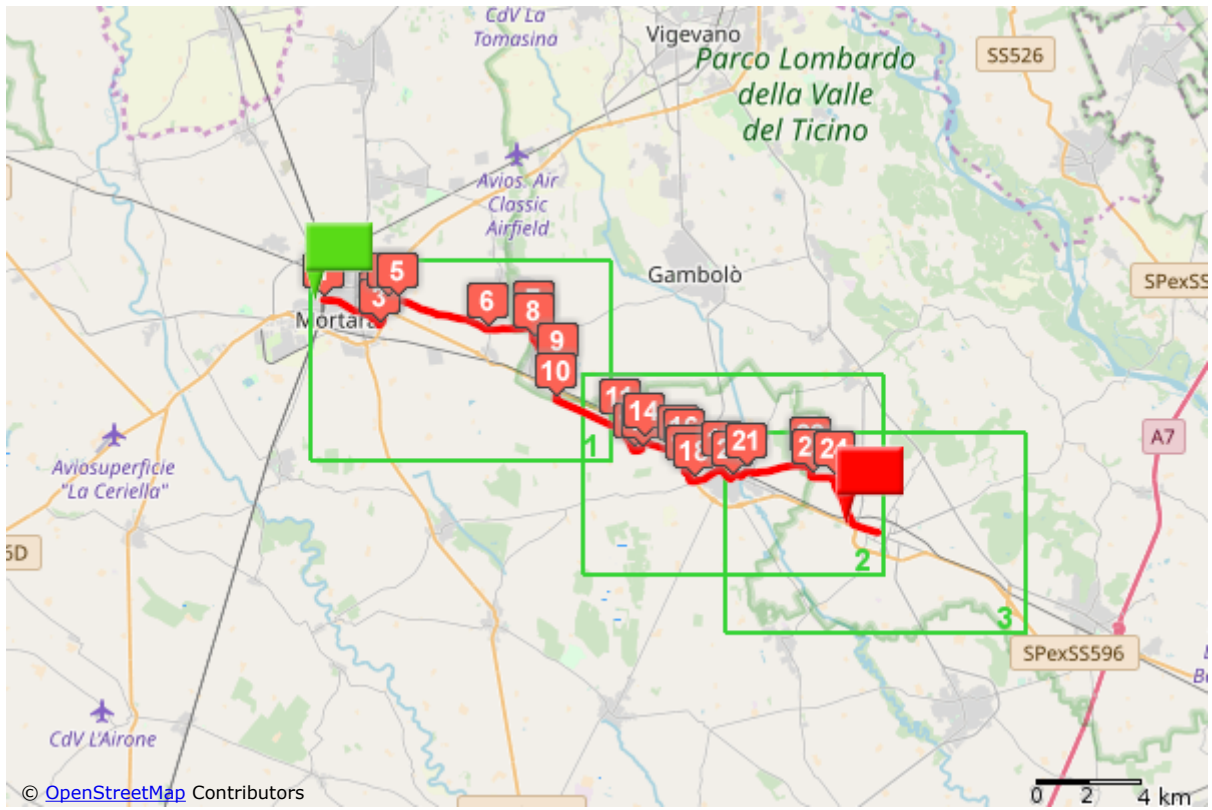

Total length 20.7 km

Description

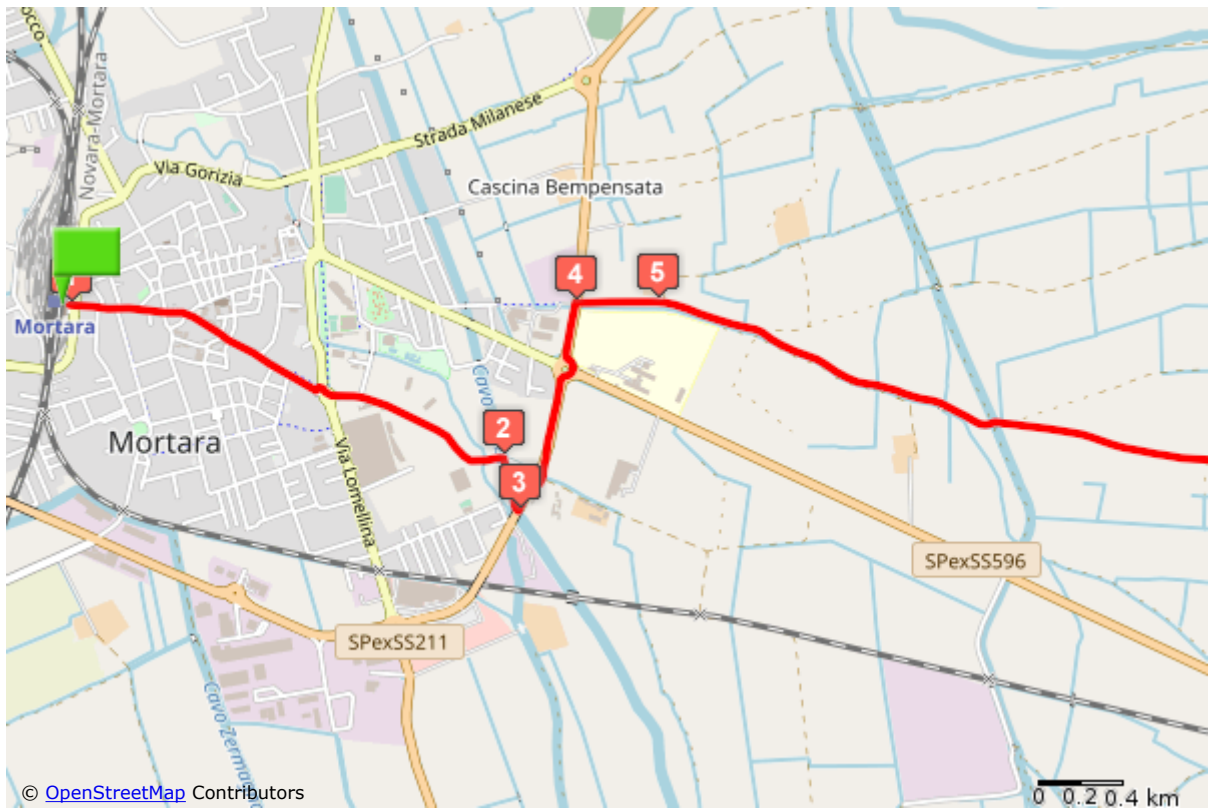

Leaving Mortara we reach the abbey of Sant'Albino, built in the fifth century and later recasted. The perfect place to stop for pilgrims arriving from Mortara. A path through fields takes us to Remondò and Tromello, rest-stop of Sigeric's route. The walk includes easy rural roads, following asphalt roads only through towns. Outside populated areas there is no water supply, the only rest-stop is in Tromello.
